**What is the most important thing you
learned about BLM?**

Why “Black Lives Matter?”

**While ALL LIVES MATTER, but not ALL are
equally ENDANGERED**

**Example: Everyone is not equally likely to experience
police brutality**

**If someone said Cancer Victims Matter, would
anyone argue against them?**

Problems must be named to solve them

Anti-Asian Racism

“Members of the AAPI community are targets right now because public health events have always been racialized. Pandemics that originate in areas populated by mostly people of color get more scrutiny, such as SARS in China or Ebola in West Africa. However, when pandemics occur in the United States and other western countries, such as the novel H1N1, citizens in those countries were not viewed as innately diseased. Many people die yearly from the flu, but Westerners aren’t seen as suspicious.”⁽¹⁾

What is the most important thing that stood out?

Anti-Racism

Actively fighting against racism rather than passively claiming to be a non-racist

Anti-racism involves actively seeking to evaluate & eradicate policies that are racist & working towards a more egalitarian society
